meet, for your loved one and
your family.*

HEARTHSTONE

by the Lake

What We Offer

Hearthstone by the Lake is unique in offering a family-styled approach to care, ensuring homeowners can remain in the comfort of their home.

In a time when palliative beds are scarce, and hospitals may not provide the comforting, family-centered experience you envision for your loved one, Hearthstone offers a compassionate alternative.

Our on-site nursing team, with expertise in end-of-life care, works closely with a dedicated palliative doctor to deliver personalized care that prioritizes your loved one's dignity and well-being. We create a warm, caring environment where families can stay together, surrounded by love and support.

To make this journey easier, a palliative care specialist offers family support, planning, and coordination of resources to enhance the experience for your loved one and their entire support system.

We also provide complimentary family meals delivered to your suite, allowing you to remain by your loved one's side without added concerns.

At Hearthstone by the Lake, we understand that "**Palliative Care**" can feel overwhelming. Often misunderstood, it focuses on enhancing quality of life through comfort, dignity, and support for individuals and their families.

Palliative care can begin at any stage of illness, easing symptoms alongside treatments. End-of-life care, a specialized form of palliative care, ensures compassion and peace in the final moments of life.

In a community with limited options and overwhelmed hospitals, we are privileged to offer a space where dignity and comfort come first.

At Hearthstone, we provide warmth, expert care, and peace of mind every step of the way.

Additional Support Services

Grief Counseling

Support for families navigating the emotional challenges of end-of-life care.

Complimentary Meals for Family Members

Meals delivered directly to your suite, allowing families to remain close to their loved one without the need to leave for meals.

On-site Qualified Staff

Around-the-clock care and assistance for any needs that may arise. Questions or concerns are just a phone call away, ensuring peace of mind and comfort.
